

# Risedale

Up in Style™

The seat lifts. Beautiful!

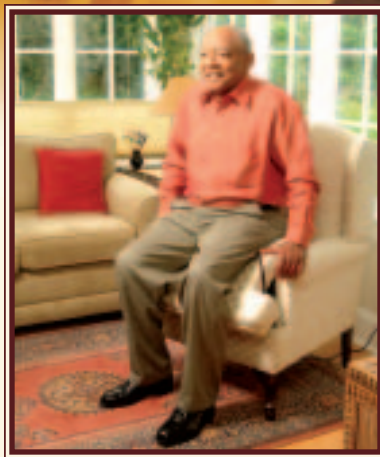

# Risedale

Up in Style™

The Risedale is a discreet seat-lift chair that fits your lifestyle. It combines the style you want, with the function you need.

The classic wing-back design blends into any décor, and is a delightful addition to any room.

With a simple push of the Power Lever, our patented technology lifts only the seat cushion, not the entire chair.

So when your guests see a stylish wing chair instead of a medical device... we've done our job!

# The Design Challenge

Our goal in creating the new Risedale seat-lift chair was to give you the style you want, with the function you need. A chair that offers a lift shouldn't look like a medical device; it should be as nice as every other chair you've ever purchased.

Everyone deserves to rise up in style.

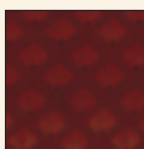

## Special Features

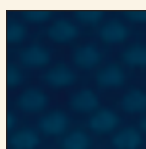

Classic brocade fabric comes in four attractive colors:

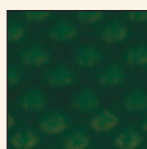

Sand

Cabernet

Midnight

Spruce

Only the seat lifts – not the whole chair.

Power Levers can be used on both left or right sides, or removed when the lift is not needed.

Custom height-adjustable legs allow you to lower chair and ottoman height by 1.5 inches.

] 1.5"

# Be Safe with Levelift™

## Risedale Specifications

Model RD01; CSA & C/US Approved, 110VAC, 60Hz, .5A  
US Patent #6,702,383 and #5,316,370.

Width: 20"/51 cm

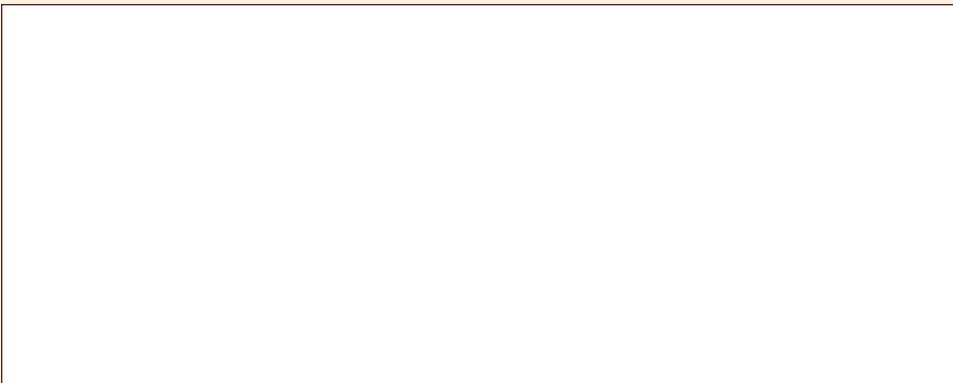

### Ottoman

Height: 16.5"/42 cm or 18"/46 cm  
L x W: 25"/64 cm x 19"/48 cm  
Weight: 22.5 lb/10 kg

### Warranty

Limited lifetime on metal support structure and chair (excluding fabric and foam). Two years on motor and electrical parts.

The Risedale's unique combination of design and function is made possible by our patented Levelift™ – a flexible seat designed to move up and down on a level lifting plane. This means you stay safely seated on a level surface through all stages of the lift – avoiding the forward dumping action of most lift chairs.

Uplift Technologies is committed to providing innovative healthcare technologies to enhance personal well-being.
